

## Recommendation Letter

Dear Parviz Aliniyazzade

### **“Azinfo Dış Ticaret Anonim” Company**

*AZ1075 Ahmed Rajabli pr224 Chinar Park Business Center, Building 4A, Floor 4, Room 39*

**Bilgah Beach Hotel** Heating and Cooling Closed Circuit Systems, Cooling Towers, Steam Generator, Swimming Pools, Domestic Water's Disinfection carried out under the supervision of AZINFO during 2019-2020 years with the Technological Water Treatment Program, lime and corrosion formations have been prevented and our systems have been enabled to work efficiently.

The protection program continued successfully with the installed automation systems, with the chemical applications and services which is done timely.

With the chemicals, **INFO 2120, INFO 4130, INFO 2140, INFO 4250** which are produced by INFOGROUP, used in our Cooling Tower systems, reduced water and energy consumption, significantly protect our chiller condensers and ensured that our systems are working properly.

Chemicals, **INFO 1420, INFO 1318** which used in our Steam Generator system, reduced water and energy consumption, they played a major role in reducing monthly and annual financial expenditures and provided significant protection for the system.

Closed Circuits were protected significantly and reduced water and energy consumption with the chemical **INFO 3140** which used in our systems.

The special disinfectant chemical branded with **INFO 4260** and dosing systems has provided bacteriological cleaning and disinfection in the best way in our hotel.

The routine controls carried in each period and the reports they prepared according to the analysis results confirmed that the work was carried out in accordance with the contract.

We would like to thank Mrs. Ayisha Talibova, Mr. Parviz Aliniyazzade and their colleagues for their success in the our hotel in line with the applied Chemical Conditioning and Energy Saving contract, we wish AZINFO to continue its services and we recommend it to other businesses.
